Software Engineer

React Engineer with 3+ years of software development expertise, dedicated to delivering high-quality, scalable, production code. Proficient in a wide array of web technologies, and always hungry to learn new programming languages and emerging technologies. Eager to join a dynamic team with diverse talent.

SKILLS

HTML, CSS, SASS, JavaScript, Typescript, ReactJS, NextJS, Jest, React Testing Library, Enzyme (deprecated), GraphQL, Apollo, No-SQL / Non-relational Databases, MongoDB, APIs / REST, Git / GitHub, Mongoose, ExpressJS, NodeJS / NPM

WORK EXPERIENCE

Express • Columbus, Ohio • 08/2021 - 08/2023

Associate ECommerce Engineer

- Contributed to the successful integration of the 'Save for Later' feature for the bag page, increasing conversion rates.
- Successfully implemented a redesign of Bag and Checkout pages, resulting in enhanced user experience and increased conversion rates.
- Revamped Product List & Search pages, expanding the grid & introducing new components for improved user experience, engagement, and control.
- Enhanced checkout with 'Tender Type Promotions' feature, allowing for PLCC and other tender type specific discounts, boosting conversions and retention rates.

Contract - ReactJS Engineer

- Identified & resolved critical site issues, troubleshooting and debugging for a seamless user experience. Maintaining code hygiene, enhancing functionality and performance.
- Contributed to the company's proprietary, reusable front-end UI component library.
- Perform daily code reviews for peers to ensure we correctly implement business objectives without sacrificing code quality.
- Developed new features, converted mock-ups in Figma and InVision to code, and write unit tests with Jest, Enzyme, and React Testing Library.

V School • 01/2021 - 04/2021

Teaching Assistant

- Conducted bi-weekly coding workshops for Web Development students learning the MERN (MongoDB, Express, React, Node.js) Stack, consistently delivering engaging lessons for three consecutive months.
- Provided daily assistance to bootcamp students, ensuring their understanding of coding concepts, including API requests and authentication.

- Practice agile SCRUM methodologies with students, such as conducting daily stand-up meetings, to prepare them for working on an agile team.

Amazon • Wilmington, Ohio • 09/2019 - 06/2020

Sort Associate

- Sorted packages, loaded/unloaded trucks and ULDs (Unit Load Device for airfreight)

EDUCATION

Full Stack JavaScript Web Development Bootcamp

V School • Remote • 06/2020 - 12/2020

- Completed a Full Stack Web Development course, mastering frontend programming with fundamental and advanced React concepts, JavaScript, HTML, and CSS. Proficient in back-end/server-side programming using the Express framework in Node.js, MongoDB for database management, and REST API development. Experienced in the MERN (MongoDB, Express, React, Node.js) stack for full stack web development. Learned industry best practices and practical software development standards.
